FILM- & TV-PRODUCTIONS IN LUCERNE

The Lucerne-Lake Lucerne Region provides wonderful locations for TV and film productions. Lucerne Tourism and Film Commission Lucerne & Central Switzerland provide their expert, straightforward assistance in the realisation of projects.

We provide assistance in the realisation of projects, including supervising productions in the region, scouting production locations, coordinating shooting permits and other forms of facilitation.

Competencies and Support

The media department of Lucerne Tourism is happy to help with film and video productions in a touristic context.

For large-scale film and TV productions (e.g. crime thriller or documentary) as well as commercial assignments of all kinds, the Film Commission Lucerne & Central Switzerland offers professional support and coordination.

Footage

Lucerne Tourism provides media representatives with free footage for media-related work. Our [gallery](#) contains a selection of high-quality visual content featuring the Lucerne-Lake Lucerne Region. Please contact us at media@luzern.com for any other footage you are looking for.

Filming in the city of Lucerne

Being one of the most beautiful cities in Switzerland, Lucerne is perfectly suited as a scenery for film and video productions of all kinds. For a successful filming process, a few important points must be observed:

Generally, permission must be obtained from the City of Lucerne for filming in public spaces. Filming on private property is only permitted with the consent of the owner. Filming on bridges is not permitted for safety reasons.

In the city of Lucerne and the Lucerne lake basin, the use of a drone is not possible without a permit (see below). There is a zone with restricted air traffic above Lake Lucerne. Permits must be obtained by the drone pilot himself from the respective authority.

All information in this document is without guarantee, errors and changes are reserved.

Operation of drones

The EU drone regulation applies in Switzerland from 1 January 2023. It specifies three different categories for the operation of drones: open, specific and certified. For operation in the open category:

- Mandatory registration via UAS.gate
- Training with examination as specified in the sub-category (A1, A2, A3). No training is required to fly a drone that weighs less than 250g.
- Minimum age for drone pilots of 12
- Minimum distance from uninvolved persons as specified in the sub-category.
- Maximum flight altitude of 120m above ground level.
- Drones must bear a CE marking and a class identification label. The transitional provisions apply to drones without a class identification label.

For the use of drones in the special category and the category requiring approval, the relevant authorities must be contacted.

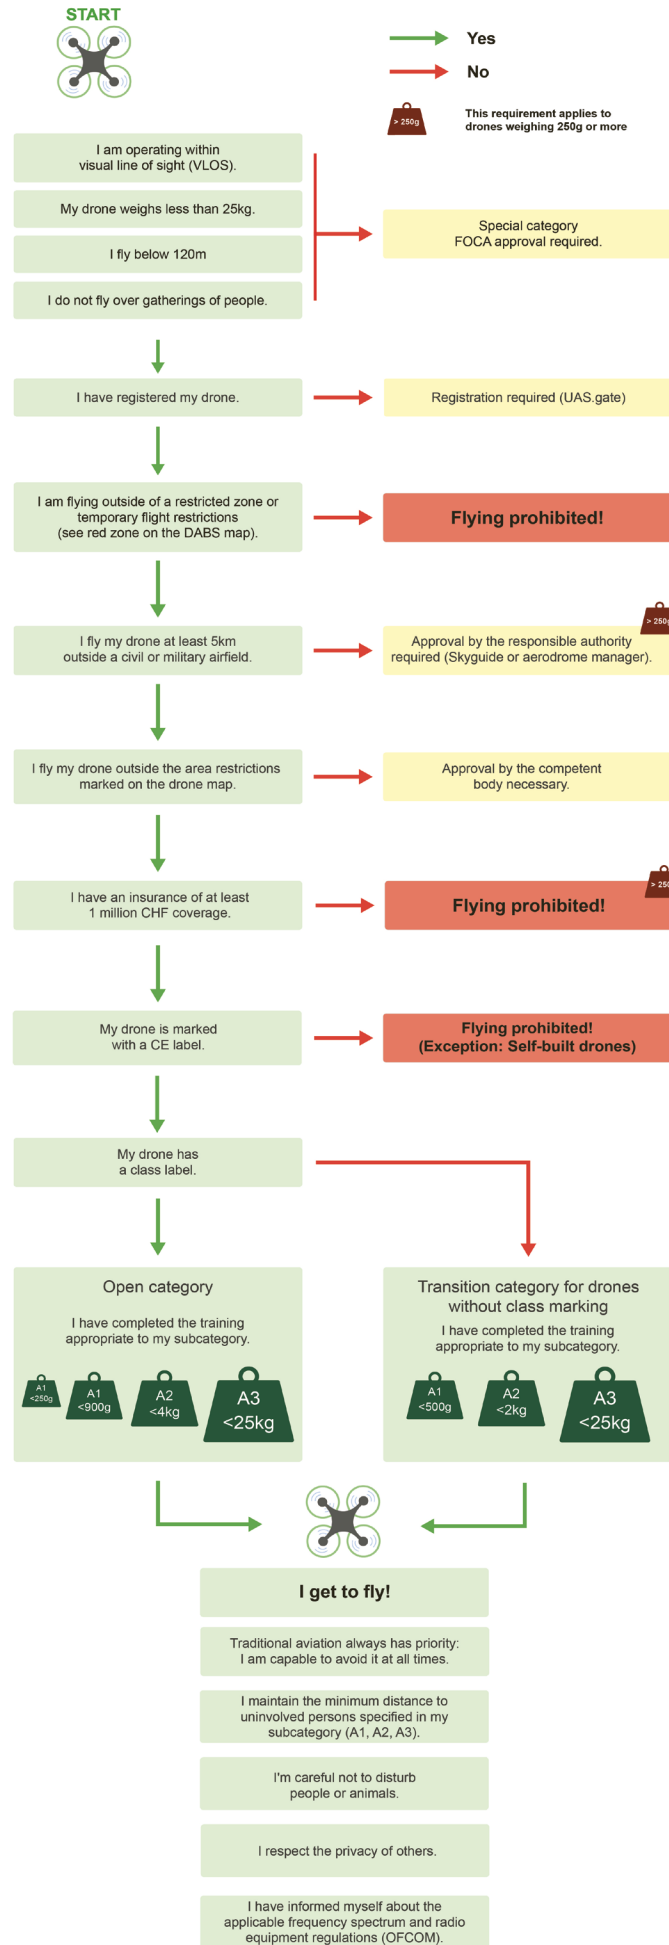

For drone flights over the lake or any water body in the Canton of Lucerne, a permit must additionally be obtained from the Lucerne Water Police (by telephone).

The interactive RPAS map (RPAS Remotely Piloted Aircraft System) published by FOCA shows those locations where restrictions and bans apply.

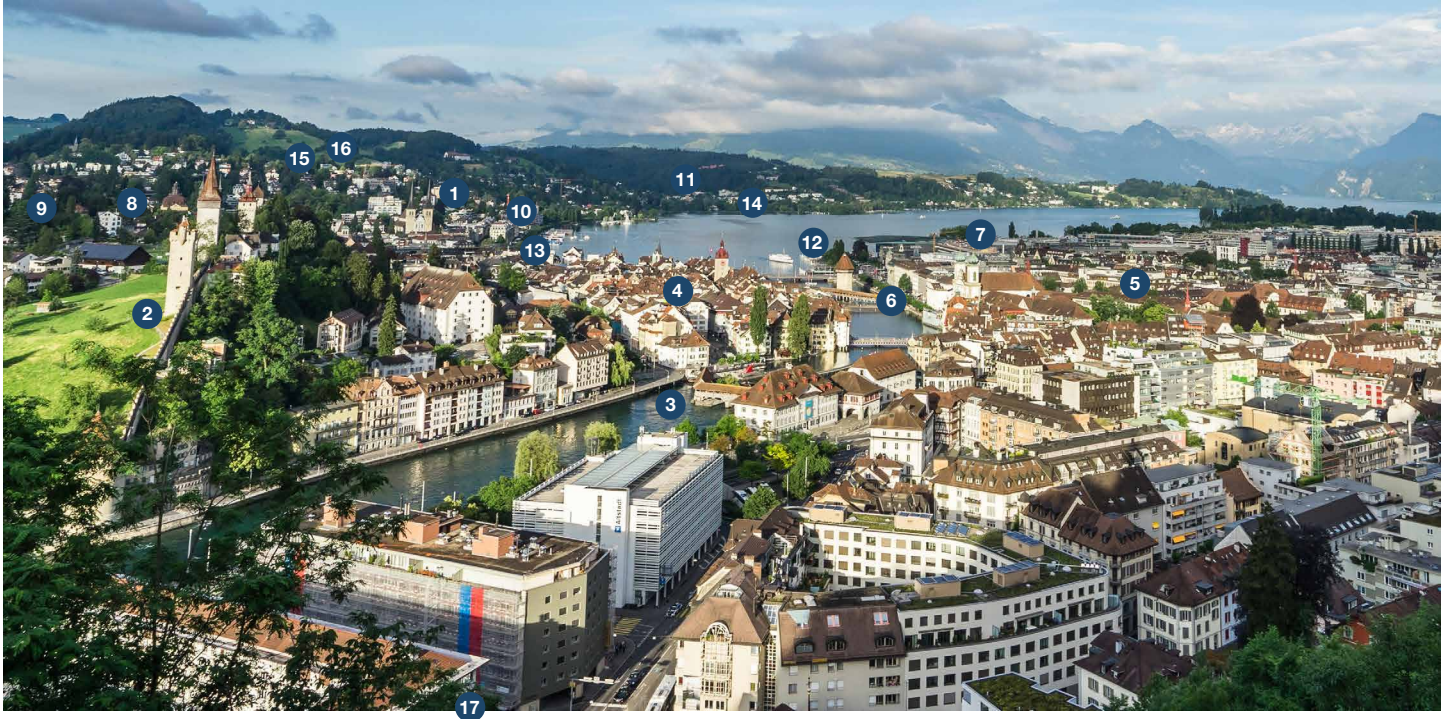

The FOCA drone guide (see next page) provides an overview of the applicable rules (green boxes) and information about the scenarios in which drone flight is subject to an authorisation (yellow boxes).

DRONE GUIDE

Further information
 The Online version of the drone guide including further links to the individual boxes as well as a list of FAQ on the new EU drone regulations in Switzerland can be found on the website of the Federal Office of Civil Aviation FOCA.
