Lucerne epitomises the perfect Switzerland. Design entrepreneur Franziska Bründler explains how Lucerne has what other cities dream of, and how this influences her work. Idiomatically situated on the Reuss, the spacious offices of the “Bodoni” studio community are bustling with activity in June. Franziska Bründler has made this her creative home since mid-2015. She has been organising Lucerne’s “DesignSchenken” design days since 2009, an annual event involving 100-plus labels and designers showing their products at the beginning of December.

For some 10 years now, Franziska has been marketing humorous and innovative design objects through her Fidea Design label, many of them created by young Swiss designers and made in Switzerland. What began in 2008 with the Monolux candleholder has since grown into a mini empire of beautiful objects, such as accessories for the home, gifts and books, and postcards – one of Franziska’s collecting passions since childhood.

Franziska Bründler has also been rooted in the city of Lucerne since her earliest years. For her, Lucerne represents both home and family: “I consider it a privilege to live in this beautiful, even rather kitschy, city!” Be it Lake Lucerne, the Pilatus (Lucerne’s local mountain) or the Old Town, she draws inspiration for her work from the delightful squares, sights and attractions known the world over as postcard motifs.

She’s also inspired and enriched by Lucerne’s hidden gems off the beaten track, including the Bruch quarter, which has become very trendy and isn’t far from Franziska’s studio, and the café in the Museum of Art Lucerne, which offers tasty morsels alongside objects made by local designers. Located in the world-famous KKL Culture and Convention Centre designed by star architect Jean Nouvel, this remains a firm favourite of the locals.

In summer, however, there’s no better place for Franziska than the Seebad Luzern lakeside venue in the heart of the city: from the outside it’s an inconspicuous timber-clad box, but anyone venturing in via the gangway immediately succumbs to the charm of the wonderful Belle Époque pools.

The Chapel Bridge was constructed in the first half of the 14th century as part of the city's fortifications. It features 67 paintings depicting the Dance Macabre added by Kaspar Meglinger between 1626 and 1635. This was the only place that chaff from cereals (Spreu) and foliage could be dumped into the river – hence the name.

The Spreuer Bridge was completed in 1408 as part of the city's fortifications. It has been used as an archive, treasury, prison and torture chamber. Today it's one of Lucerne's trademark attractions.

The “Dying Lion of Lucerne” is one of the world’s most famous monuments. Carved out of rock, it commemorates the heroism in 1792 of Swiss soldiers who died attempting to protect the Tuileries Palace in Paris. Mark Twain described the Lion of Lucerne as “the most mournful and moving piece of stone in the world”.

The Needle Dam was built in 1859/60. It was renovated and extended in 2009 – 2011. The water level of Lake Lucerne is still regulated manually by the removal and insertion of wooden “needles”.

The Water Tower The octagonal tower, over 34 metres in height, was built around 1300 as part of the city’s fortifications. It has been used as an archive, treasury, prison and torture chamber. Today it’s one of Lucerne’s trademark attractions.

The KKL Luzern culture and convention centre The KKL Luzern with its 1840-seat concert hall is the work of the Parisian architect Jean Nouvel. The Lucerne Hall, auditorium in the convention centre and Museum of Art Lucerne are part of this sensational architectural masterpiece.

The Greif monument in the middle of the 18th century portrays scenes of Swiss and local history, including biographies of the city’s patron saints, Leodegar and Mauritius.

### Lucerne offers more than traditional Swiss fare. Available alongside the national cuisine are countless variations of international cuisine from every continent. The following selection will help you navigate Lucerne’s eclectic gastronomy.
Carnival
Carnival is Lucerne’s “fifth season”. An intoxicating six-day celebration of chaos and zest for life. Bizarre figures in fantastical masks and costumes parade through the alleyways, while musicians blow their instruments in joyful cacophony and thousands of costumed revellers chase the winter away. 2019 Lucerne Carnival: 28.2. – 04.3; 2020: 20 – 24.2. www.luzerner-fasnacht.ch

Alpine cattle drives, fairs and markets
Alpine cattle drives, fairs and markets take place in the Lucerne – Lake Lucerne Region in September and October. The Entlebuch cattle drive down from Sörenberg to Schüpfheim features more than 200 cattle accompanied by herdsmen and dairymen with traditional carts and folk groups. www.luzern.com/alpabfahrten

Klausjagen (Nicholas Chase)
The Küssnacht Klausjagen (Nicholas Chase) is one of Europa’s most imposing St. Nicholas’ Day customs. The procession featuring around 200 ornate “Iffelen” hats, the figure of St. Nicholas and the archaic din of more than 1000 “Nicholas Chasers” draws 20,000 spectators to Küssnacht am Rigi every year. The event normally takes place on 5 December. www.klausjagen.ch

Swiss wrestling and alpine festivals
Numerous Swiss wrestling (Schwing) and alpine festivals take place every year, accompanied by yodelling, flag-throwing, alphorn blowing and folk music. Events include the Rigi-Schwingen, the Brünig-Schwinget, the Innerschweizer Schwing and Alpine Festival and various cantonal wrestling festivals. www.luzern.com/schwingfeste

Lili – Lucerne Festival of Lights
From 10 to 20 January 2019, Lucerne becomes a place of encounters immersed in light. Artistic light installations illuminate numerous building facades and squares, bringing warmth into the wintry city. www.lichtfestivalluzern.ch

Christmas
Seasonally decorated Lucerne is especially beautiful during Advent. Lights and stars sparkling in the alleys and on the bridges reflect in the water. Christmas markets, the crib in front of the city hall with life-size figures, the famous Seeburg Christmas Hotel and traditional Christmas customs contribute to the special atmosphere.

Christmas tours – Join us as we stroll through the city of lights
We help you pass the time more quickly in the run-up to Christmas. Our “Pine Boughs and Bright Lights” thematic tour through Lucerne at Christmas reveals the secrets surrounding the Christ Child and Father Christmas, how pine trees found their way into our homes, and since when illuminations have been adorning our streets and squares. You hear seasonal and humorous stories featuring Lucerne’s Christmas traditions in December and visit the life-size crib. Languages: on request
The idyllic resorts of Weggis and Vitznau are located on the shores of Lake Lucerne at the foot of Mt. Rigi, the “Queen of the Mountains”. This region is known as the Lucerne Riviera, owing to the many days of sunshine and the mildness of the climate that encourages warmth-loving flora such as palms, orchids and chestnut trees.

**Weggis-Vitznau-Rigi: the Wellness Region on Lake Lucerne**

www.weggis-vitznau.ch/hotels

The Haldihof is on Waldstätterweg between Weggis and Küssnacht am Rigi. Enjoy a coffee and slice of homemade cake on the terrace while admiring the unique views of both lake and Pilatus. The attractive farm shop offers a large selection of organic products, including dried fruit and apple juice to mustard, vinegar and even fragrant bath cubes.

**Rigi**
The Rigi is a magnificent natural arena featuring peaks, valleys, alps and pastures, forests, meadows, lakes and imposing rocky slopes. Europe’s first mountain railway, Switzerland’s first mountain inn, nine aerial cableways and cog railways, kilometres of footpaths, barbecue spots, restaurants, hotels, spas and activities, as well as crystal-clear water, fresh air and breathtaking panoramic views make for unforgettable excursions in spring, summer, autumn or winter. Get out there and enjoy yourself – what could be simpler?

**Walking**
Stroll along the lakeside promenade or stride off on mountain paths. In the Weggis-Vitznau-Rigi holiday region you can hike between the lake and the summit. The Rigi boasts a network of 120 kilometres of footpaths for easy walks as well as challenging scrambles. The views are magnificent.

**Spas & Health**
The Weggis-Vitznau-Rigi region offers a range of spa and health venues, such as the Cenero Clinic at the Parkhotel Vitznau, the Kurhaus Saablik Weggis, the Kurhaus St. Otmar and the Chenot Palace, due to open in 2020.

This pearl between Lucerne and Interlaken is far more than just the central point of Switzerland. Obwalden is notable for its varied landscapes in the midst of mountains, forests and lakes. Visitors love the sheer variety of summer activities, including walking, mountain biking, climbing and fishing. Obwalden in winter is popular for its plentiful snow and family-friendly winter sports resorts. You sleep well in Obwalden – the destination where dreams come true. Obwalden will give away its best-kept secrets – and that’s a promise!

The geographical centre point of Switzerland is on the Älggialp in Obwalden. A walk to this place along the cairn path is well worth the effort.

Where Brother Klaus lived and worked
Falki-Ranft was the stamping ground of Niklaus von Flüe, the patron saint of Switzerland known as Brother Klaus. His burial chapel in Nachet, the house where he was born and lived and the Obere Ranft Chapel are testaments of this period.

Switzerland’s largest moorland setting
Boasting countless species of flora and fauna, the country’s most extensive stretch of moorland lies above Sarnen around Langg Loch and Glaubenberg. In winter the region attracts cross-country skiers with more than 40 km of trails.

Obwalden – mecca for joggers
From the spring of 2019, Obwalden is positioning itself as the most attractive running location in Switzerland, where people of all ages can take advantage of the simple, low-cost opportunity to relax, burn off energy or simply enjoy each other’s company.

More mountain railways and cableways are concentrated here than anywhere else in the world: the Pilatus, Titlis, Stanserhorn and Bürgenstock are world-famous. Between Lucerne and Engelberg, Nidwalden boasts more than 40 mountain railways, cableways and tourist destinations, many of them on the shores of Lake Lucerne. It has so much to offer in the way of accommodation, and its leisure and recreational facilities are popular with visitors. Nidwalden enjoys a rich heritage it when it comes to sacred sites of interest, including pilgrimage trails (Maria Rickenbach) and “places of power”, as well as culture and traditions. A visit to Switzerland’s last remaining traditional glassworks in Hergiswil is great whatever the weather.

Authentic and genuine
“Drahntä!” This is what the Nidwalden mountain farmer or alpine dartman calls when he sends off his cable car to take visitors up the mountain. All kinds of lift aerial cableways facilitate walking in little-known mountain landscapes.

Winter fun and relaxation
Nidwalden offers family-friendly snowsports in Klausen and Wittiswil, as well as pristine nature on the Bannalp and Niederlenbach / Haldfurgel. A great place for snowshoe tours and off-piste skiing!

Summer activities
Choose from swimming in the lake, canoeing, sailing, diving, hiking and barbecuing, mountain biking, golfing, archery and paragliding, quad bike touring, rope park and rock climbing.

Gastronomy and hospitality
Nidwalden has more than 100 hotels and restaurants – including rustic galleries up in the mountains – plus around 50 varieties of cheese. Rounding out the offer in the canton’s glorious natural setting are comfy holiday lets, sleep-in-straw farms and campsites.

Natural wonders, customs, cultural treasures, history: there are so many facets to Schwyz. Nature-lovers journey into the Muota valley to explore the karstic landscape of Silbern or the coldest place in Switzerland – the Glattalp. Carnival, Sennenchilbi fairs, St. Nicolas processions and Swiss wrestling festivals show the traditional side of Schwyz. While the numerous mountains, lakes and upland moors invite exploration, Einsiedeln Monastery is a place of peace and contemplation. The Museum of Swiss Charts, the Forum of Swiss History and the Mongarten Information Centre commemorate the beginnings of the Swiss Confederation. The Gross Mythen, Rigi and Fronalpstock offer bird’s-eye views of Schwyz.

Victorinox Museum
The exhibition presents the history of the Swiss Army Knife. It includes a variety of rare exhibits. If advance notice is given, visitors can assemble their own pocket knife.

World’s steepest funicular railway
This new Stoos Railway is an engineering marvel and makes the trip to the Stoos summer and winter resort an experience in itself: breathtakingly steep ride to the car-free mountain village at alt. 1300 m.

Einsiedeln Monastery
The monastery looks back on a 1000 year history. Pilgrims from all over the world pray to its Black Madonna. The abbey library houses very early examples of books illustration. The Marastill is Europe’s oldest stud.

Animals up close
Slastana Nature Park and Zoo is located in the wildly romantic Bergsturzwald forest. Visitors can observe around 100 native and European wildlife species at close range. Open 365 days a year.
Between the blue waters of the Lake Uri and the glaciers of the Gotthard massif lies an ancient landscape of unsurpassed diversity. The Alps in the holiday destination of Uri are pristine and full of life. There’s no escaping their enchantment once they’ve cast their spell on you. This is a land of incredible stories, myths and legends. An extensive network of footpaths and spectacular mountain bike routes lead into an imposing mountainscape. Uri is a place of culture: music, museums, art and culture trails forge a link between tradition and the present day.

Uri – aerial cableways galore
No fewer than 36 aerial cableways convey you up high with ease. A variety of Gotthard- and railway-related experiences are also waiting to be discovered.

Activities in Canton Uri
1500 km of footpaths promise walking pleasure with magnificent views amid imposing scenery between the mountains and lake.

Uri 1291 – traditionally modern
The original locations featured in the myth of Swiss freedom-fighter Wilhelm Tell are still very much in evidence in Uri, ensuring a fascinating journey of discovery.

Living culture and customs
Alpentöne international music festival, gospel choirs, Momké & Co theatre group, Usiglach, Musikalbome Uri music festival
Annual: Tonart Festival, Isenthal crafts market, alpine cheese market, December Days.

Fascinating alpine passes
Road cyclists, mountain bikers and e-bikers benefit from a network of more than 250 km of waymarked trails and innumerable pass roads. The St. Gotthard BikePass can be used all day long on the public transport system.

Refuge hikes
The region’s 16 refuges, interconnected with hiking trails, offer a unique experience in pristine nature.

SkiArena Andermatt-Sedrun
120 km of groomed and varied runs. Excellent off-piste conditions.

Activities away from the slopes
Aside from the skiing, the resort offers 16 km of groomed footpaths, eight waymarked snowshoe trails and 28 km of groomed cross-country skiing.
